In the specification

The Abstract has been changed as follows:

- - A pennant holder for attaching a pennant to a small pole, comprising:
a pole holder made out of a plastic material in the shape of a cylinder having a closed end, the closed end being slit to form flaps that permit the pole to pass through the closed end of the cylinder while displacing the flaps and causing the flaps to grasp and hold the pole, the pole holder having an integral receiving U-shaped clip; and
a pennant attachment having two mating halves that grasp the attachment end of the pennant and hold it along the length of the attached end, the pennant attachment adapted to fit into the receiving clip in the pole holder. - -
